2011 TOPS in the INDUSTRY RANKINGS

A publication of National Oil & Lube News

About NOLN's 2011 Tops in the Fast Lube Industry Rankings

Published in March, the Tops in the Fast Lube Industry Rankings lists the top fast oil change "chains" — those companies operating six or more like-branded facilities — by the number of lube shops each operates. This year, the 53 chains that made the fast lube list operated a grand total of 6,913 facilities, or just more than 43 percent of the total U.S. fast lube population.

In addition to the fast lube list, NOLN ranks the top "oil change-plus" chains, which are those companies that offer oil changes, but generally not as the primary focus of the business (i.e. tire stores, mass-merchant retailers, carwashes, etc.). We also rank "associated" chains (those companies that operate six or more stores that wear signage of a larger operation), U.S.-based foreign chains (those U.S.-based companies with a sizable overseas fast lube presence) and truck lube chains that primarily service commercial trucks.

Fast Lube Industry Facts:

- As of March 1, 2011, there were approximately 16,716 fast lube facilities in operation in the United States (as characterized by those facilities that derive a majority of their annual gross sales from quick oil change and other preventive automotive maintenance service). Overall, the industry's facility population increased by approximately 1.1 percent (approximately 185 facilities) between March 1, 2010 and March 1, 2011.
 (Source: NOLN estimate based on internal database.)
- For 2011, the fast lube industry will record gross sales of approximately \$9.027 billion, an increase of nearly \$100 million from last year. (Source: NOLN estimate based on 2011 Tops figures and sales data from 2010 Fast Lube Operators Survey.)
- The average fast lube customer changes his or her motor oil every 4,419 miles. (Source: 2010 Fast Lube Operators Survey)
- Between 2008 and 2010, only 3 percent of installed customers extended their oil change intervals. (Source: Frost & Sullivan)
- In 2010, 75.4 percent of all automotive service events were attributed to the installed market. (Source: IMR Inc.)
- The average age of U.S. passenger cars and light trucks stands at 10.2 years, and U.S. drivers are keeping their vehicles an average of nearly 50 months, a 10 percent increase from 2008. (Source: R.L. Polk)

Fast Lube Chain Facts:

- Castrol's Premium Lube Express branded program expanded 29 total shops last year.
- CITGO's Mystik Service Center program expanded by 24 total shops for a 400 percent growth rate, which moved the chain from 50th position to 23rd in just 12 months.
- Two fast lube chains were added to our list: North Carolina-based
 Snappy Lube, a company with nearly 30 stores, and Wisconsin-based
 Fast Track Oil Change Center with 12 stores.
- Three companies dropped off our list: New York-based FastTrack, whose 12 shops were purchased piecemeal by other companies; Illinois-based Brahler lube Center, which sold one store and dropped to five total, keeping them just under the minimum for inclusion on our list; and Texas Oil X-Change, which was purchased by a major franchise company.

Oil Change-Plus Chain Facts:

- Fifteen of the 51 chains on the oil change-plus list recorded an increase in store population, led by TBC Retail, which grew by an impressive 45 facilities.
- Seventeen chains on the oil change-plus list were unchanged from last vear.
- Three new chains were added this year: Big 10 Tire Stores (84 facilities), Honest-1 Auto Care (25 facilities) and Woodie's Auto Service (seven facilities).

TOP 53 FAST LUBE CHAINS OPERATING

(LIST INCLUDES ONLY THOSE OPERATIONS REPORTING SIX OR MORE FACILITIES)

The chains on this year's list operate a total of 6,913 facilities, a figure that reflects a decline in facility population of less than 1 percent from last year.

Overall, CITGO's **Mystik Service Center expanded** 24 total shops for a 400 percent growth rate.

Two new companies made this year's list — Snappy Lube and Fast Track Oil **Change Center.**

Of the 53 chains listed on this year's and last year's rankings, nearly 75 percent either grew or remained unchanged.
